TORONTO, January 1st, 1897.

TO THE HONORABLE ELIHU JAMES DAVIS,

*Registrar-General of the Province of Ontario.*

SIR,—I have the honor herewith to present the Twenty-Sixth Annual Report of Births, Marriages and Deaths of the Province of Ontario, being for the year 1895.

The report makes reference to the following matters :

I. Notes on the Several Registration Acts of Upper Canada and Ontario.
II. Notes on the Practical Operation of the Act of 1896.
III. The Report of the Inspector of Vital Statistics.
IV. The Act of 1896, printed in full.
V. Notes on the Tabular Matter of the Report.
VI. The Summarized Tables of Births, Marriages and Deaths.
VII. The Appendix containing the Tables of Returns in full.

I am, Sir,
Your obedient servant,

P. H. BRYCE,
Deputy Registrar-General.

## I. Notes on the Several Registration Acts of Ontario.

In the period prior to Confederation the sparsely settled character of many districts of the Province and their necessarily simple municipal organizations may be considered sufficient reasons why the United Canadas had not established any system of vital statistics. In 1859, however, an Act was passed, simple but effective in its provisions, for the collection and safe-keeping of the records of all marriages celebrated in Upper Canada. This Act continued in force till 1869. In 1868 an Act was passed by the Ontario Legislature and went into force in 1869, known as the Act respecting Births, Marriages and Deaths in Ontario.

Under this Act the Provincial Secretary became Registrar-General of the Province, while the Clerks of the Peace of each county were made District Registrars, and were required to transmit books and forms, prepared by the Registrar General, to the several Division Registrars or municipal clerks, who in turn were required to make their returns to the several District Registrars, and who again forwarded them to the Registrar-General. Under the Act the Division Registrar received ten cents from the parent or other person registering a birth, marriage or death. In 1875 an amendment was made in the law whereby the District Registrars disappeared and municipal clerks were brought into direct relations with the Registrar-General, receiving from him all instructions and blank forms, and transmitting to him the semi-annual returns. This Act provided that the municipality pay ten cents for each registration to the clerk. With slight alterations the Act of 1875 continued in operation till 1896. Its provisions were comprehensive and defined the duties of (a) the Registrar-General, (b) the Division or local Registrars, (c) the householder, (d) the clergyman, (e) the physician and (f) the undertaker. The objects of the Act as set forth in its several provisions were to obtain records of such information as might be of use to the state in estimating the influence upon the population of climate and sanitary conditions, as regarded the prevalence of all or any special disease as shown by the mortality tables, in studying the social conditions of the people as illustrated by the statistics of marriages and births, and of calculating the natural increase of the population as a whole, or in rural as compared with urban districts, and of the effects of industrial conditions and occupations of the people in different sections of the Province, upon the progress of settlement and population. An equally important, and perhaps more primary intention in the passage of the Act, was the collection and preservation of the records for the many purposes necessary in connection with those legal questions which are constantly arising in any complex and progressive civilization. That at so early a stage in the history of the Province, only thirty-two years after the first registration Act had been passed in England, and eighty years from the founding of Upper Canada, the Legislature should have begun an annual stock-taking of its population, seems most creditable to its social advancement, since it was amongst the first of any state or province on the continent to pass such a law; but that its efforts should have lacked somewhat of that accuracy which the populous communities of the Old World, with their developed municipal governments, have exhibited, seems but natural.

The incompleteness of the returns, so far as such has existed, was due (1) to the imperfections in the Act itself, (2) to the lack of knowledge amongst a population of recent growth both of the terms and method of operation of the Act, and of the objects intended to be attained through it; (3) to the sparseness of population in many districts and to the inadequacy of the means provided for obtaining accurate registrations. Some of these difficulties doubtless, to some extent yet exist; but the Act of 1896 has been passed with the distinct object of remedying evils, which past years had made abundantly apparent.

Apart from the remodelling of the Act, by which its operations have been extended to the remotest settlements of the Province, it provides: (1) *That a local register be kept by the Division Registrar of every municipality or registration division.* This register may be examined by any ratepayer. A copy of the facts therein contained must, however, as before be transmitted to the Registrar General, the record for legal purposes being still supplied by him. This provision has been welcomed on every hand, and will prove of value in collecting and preserving the returns in a more complete form than has hitherto been possible.

(2) *Every Division Registrar is required to make a return on or before the fifth day of every month of all deaths from contagious diseases occurring within the municipality during the preceding month.* This clause has proved of the greatest value in supplying to the Provincial Health Department an accurate record of contagious disease, which has even within the first half-year of the operation of the Act, enabled the Provincial Health Office to take effective measures for suppressing localized outbreaks. The fortunate combination under one executive head of the two branches of vital statistics and public health enables the Regstration Act to become not only indirectly but directly a most important aid to the public health service.

(3) *The Division Registrar is now required under the Act to make diligent enquiry into the facts regarding any birth, marriage or death coming to his knowledge, which has not been registered.* He must further, if failure to register continues, report the facts to the Department of the Registrar General.

(4) *Every medical practitioner attending at the birth of any child must forthwith give notice thereof to the Division Registrar of the municipality wherein the birth occurred.* This provision is present in the Registration Acts of several neighboring states, and is an important addition to the facilities for obtaining complete registrations.

(5) *Every death must be registered before a legal burial can take place,* and no undertaker, clergyman or other person can engage legally in any burial, unless he knows that the registration of the death has taken place.

(6) *The physcian in last attendance shall at death at once send a report of the death and its cause to the medical officer of health for certification.* Thereupon the Division Registrar will register the death and issue the burial permit.

(7) *Every cemetery caretaker or the clergyman in charge of any church to which a cemetery is attached is required to make returns* of the names of persons buried therein during the previous half-year to the Division Registrar.

(8) The Division Registrars in view of the inadequate provisions previously made for the collecting and recording of the returns are now entitled to receive from the municipality twenty cents for each complete registration as certified to by the Registrar General.

## II. Notes on the Practical Operation of the Act of 1896.

The Act of 1896, whose provisions have been referred to, went into force in the begining of May, but its operation may be considered as having begun on the 1st of July. In other words it has been in operation for six months. The forms are allowed to pass free through the Post Office. The aim has been to supply, as freely as possible, all necessary forms to the several persons required under the Act to make returns. Simplicity and convenience have been sought after in the working details of the Act, and the old forms have been changed into post card blanks. The following are copies of the several card forms in use.

*Address of Division Registrar on the reverse side.*

Form A.

Issued by Registrar-General of Ontario.

RETURN OF BIRTH.

By Order of the Postmaster-General, FREE.

County..... Div. .....

| | |
|---|---|
| Name of child ..... | |
| Sex and Date of Birth ... | |
| Residence ..... | Street, No. of, or Lot. |
| Name of Father ..... | |
| Maiden Name of Mother. | |
| Occupation of Father.... | |
| Physician in Attendance. | |
| Remarks ..... | |

Date of Return..... .....

Signature of person making Return ..... .... .... .

☞ Neglect on the part of any parent, householder or physician to comply with the Act relating to Births, Marriages and Deaths is subject to a penalty of $10.00. (Secs. 15-16, 59 Vict., cap. 17.)

*Address of Registrar-General on reverse side.*

MARRIAGE RETURN.

Form B.

Issued by the Registrar-General of Ontario.

By Order of the Postmaster-General, FREE.

County..... ..... Div.....

| | GROOM. | BRIDE. |

| Remarks ... ..... | | |

Date of Return.....

Sig. of Division Registrar.....

☞ Every Division Registrar shall, on or before the 5th day of every month, make a Return of all deaths from Contagious Diseases occurring within the preceding month. Sec. 11, Sub-Sec. 4 of Act Relating to Births, Marriages and Deaths. Cap. 17, Vict. 59.

The cards A. C. and D. are transmitted in quantity to the 750 Division Registrars of the Province, these again forwarding the proper cards to physicians and householders in envelopes marked *Free.* The Form D. is returned as required monthly to the Registrar-General. Form B. is sent to the issuers of marriage licenses who are required under the Marriage Act to make immediate return to the Registrar-General of every marriage license issued by them. In this way the Registrar-General is enabled to check the marriage returns by clergymen to the Division Registrar, who returns copies of them to the Registrar-General every half year. For a month or two the correspondence relating to the use of the several forms was very great, but it soon became apparent that the forms were satisfactory and that they served the intended purpose of simplicity and convenience Along with these several forms a Burial and Transit Permit was issued, necessitated by the stringent clauses relating to the registration of deaths and burials.

The following is a copy of the Burial and Transit Permit.

Form F.—Certificate of Registration, prepared by the Registrar-General of Ontario.

BURIAL PERMIT.

also

TRANSIT PERMIT.

*I HEREBY CERTIFY that the particulars of the Death of* .....

..... *resident in*.....
(at time of Death)

*caused by* .....

*have been registered by me, and that the provisions of Sections 22, 23 and 25, Chapter 17, Vict. 59, 1896, have been duly complied with.*

*Signed,*

.....
*Division Registrar.*

*Date Issued*.... .....*189* *Municipality of*.....

Cap. 17, Vict. 59, 1896, Sec. 27. Any person who knowingly or wilfully makes, or causes to be made, a false statement touching any of the particulars required to be reported and entered under this Act shall upon conviction forfeit the sum of $50.00.

NOTICE.—The above words "Transit Permit" must be scored out by the Division Registrar (thus, ~~TRANSIT PERMIT~~), in the case of a death due to anthrax, smallpox, cholera, scarlatina, diphtheria or croup, all which demand, under the Public Health Act, Cap. 205, R. S. O. 1887, private burial in a cemetery in common use by the Municipality wherein the death occurred.

Copies of the following circular were likewise forwarded to Division Registrars drawing their special attention to those clauses of the Act with which they have to deal.

READY REFERENCE NOTES ON THE ACT *re* BIRTHS, MARRIAGES AND DEATHS, 1896.

NOTES ON SECTIONS OF CAP. 17, 59 VICT., 1896.

In order to have the provisions of the new Act put into force at once it has been thought advisable to not only forward copies of the new Act, which should be carefully examined, but also to direct the attention of Division Registrars to some of the details therein contained. Referring to such Sections in their order—

Section 7.—(1) Provides that applications for searches in records shall be made to the Registrar-General, accompanied by a fee of *25 cents* for each search; and sub-sec. (2) requires the payment of a fee of *50 cents* for every certificate issued.

" 11.—(2) Provides that returns shall be made by Division Registrars half-yearly on or before the 15th days of January and July in each and every year. Sec. 11, sub-sec. (3) requires that the returns received by Division Registrars shall be indexed in books prepared according to the form prepared by the Registrar-General and supplied at the cost of the municipality.

" 11.—(4) Provides that returns shall be made to the Registrar-General on or before the fifth day of every month by Division Registrars of all deaths from contagious diseases according to the form supplied by the Registrar-General.

Section 12. Burial certificates shall be delivered without fee to any person requiring the same for burial, according to the form prepared by the Registrar-General, stating that the particulars of such death have been duly registered.

" 13. Requires Division Registrars to make diligent inquiry concerning births, marriages and deaths and to notify the proper person to register the same. It is advised that a blank card be placed in the small envelopes prepared for this purpose and addressed to the persons required by law to register. If after notification such registrations are neglected Division Registrars are required to send in a list of persons so neglecting to the office of the Registrar-General and addressed to the Inspector.

" 14. Provides for Division Registrars correcting errors of registration within one year or sending the correction to the Registrar-General for correction.

" 15. Provides for registration of births by the parent or other person responsible therefor within *thirty* days of birth.

" 16. Provides for registration of births, *forthwith*, by medical practitioners attending at such births on the forms supplied to them through the Division Registrar, which will be supplied by the Registrar-General from time to time as asked for.

" 17. Provides that no birth can be registered without the consent of the Registrar-General if neglect has continued for a longer period than *one year* from date of birth.

" 19. Provides that the alteration of the name of any child shall be made only by the Registrar-General and within ten years from date of birth.

" 20. Provides that all marriages shall be registered within *thirty* days from date of celebration.

" 21. Provides for the registration of every death by the person responsible therefor *before the interment of the body.*

" 22. Every medical practitioner shall *forthwith* send the certificate of death to the Medical Health Officer in the case of cities, towns and villages, and to the Division Registrar in townships and in those cities, towns or villages where no Medical Health Officer exists.

" 23. No removal for burial or no interment can legally take place until the certificate according to the form prepared by the Registrar-General has been signed by the Division Registrar, except in the case of deaths from contagious diseases in townships, when the nearest Division Registrar may issue a burial certificate to be endorsed by the Medical Health Officer of the municipality. This provision is to facilitate speedy private funerals and to prevent exposure to contagious diseases and transportation of contagious diseases on trains.

" 24. Provides that no person in charge of a cemetery shall permit burials therein until he has received the certificate of the Division Registrar. Such caretakers and others shall likewise supply the Division Registrar with a list of the burials and the names of all persons buried therein during the previous half-year.

" 25. Provides that no registration of the death of a body found outside of a house or of any person after two years shall be made without the consent of the Registrar-General.

" 26. Provides penalties for neglect on the part of Division Registrars to make returns.

" 27. Provides penalties for false statements concerning any particulars required to be made under this Act.

" 28. Provides penalties for neglect to make returns to Division Registrars and for prosecutions therefor by the Inspector of the Province, to be begun within two years after the time required to make the return.

" 31. Provides for the payment of 20 cents for each *complete* registration on presentation by Division Registrar of the certificate of the Registrar-General to the Treasurer of the municipality.

" 34. Repeals cap. 40 of the Revised Statutes of 1887.

RICHARD HARCOURT,
Registrar-General.

In addition to the above circular another was sent out to the Division Registrars as well as to all the railway transportation companies operating in the Province of Ontario, drawing their attention to the provisions of the Act relating to the transportation of corpses by railway.

CIRCULAR TO RAILROADS.

TORONTO, July 29th, 1896.

*To the General Manager of the..... .....Railway.*

SIR,—In consequence of the many instances in which the officials of your railway have to deal with the question of the "transportation of corpses" by train, I take this opportunity of forwarding to you blank forms adopted under the Consolidated Act Relating to Births, Marriages and Deaths as passed by the Legislature of Ontario in 1896 While exact in its provisions, every endeavor has been made to cause the operation of the Act to be as simple as possible.

You will notice that the red and blue cards for notification of deaths are the same, except that the red is for use in cities, towns and villages, and the blue in townships. In the case of the former, the Medical Health Officer must have certified as to the correctness of the cause of death before the registration and subsequent issue of the burial permit can be made by the Town Clerk or Division Registrar.

The railway authorities, therefore, are only interested in obtaining from the person in charge of a corpse, one of the burial permits, which is also a "Transit Permit"; but officials must be careful to see that whether or not the words "Transit Permit" are scored out, the cause of death is not one of those for which transportation is forbidden by the Public Health Act. These Burial Permits are printed by the Registrar-General only, and have been supplied to the Division Registrar in every Municipality in Ontario. As no burial can legally take place without the Burial Permit accompanying the corpse, it is

absolutely necessary that railway officials see that corpses transported, whether within or into Canada, are accompanied by a Burial Permit, with the cause of death stating that the body may be legally transported under the Public Health Act of Ontario, otherwise Medical Officers of Health will not receive them into their municipality.

A copy of this circular has been transmitted to every Division Registrar in the Province, and the Division Registrar will be pleased to supply your railway with as many copies of the circular as you need for distribution to your local agents, and also with copies of the Burial Permit enclosed

I have the honor to be,
Your obedient servant,

PETER H. BRYCE,
Secretary Provincial Board of Health,
and Deputy Registrar-General.

N.B.—A copy of this circular has been sent to the superintendents of each of the railways operating in Ontario.

In order fuller to familiarize the public and especially those persons required to perform certain duties under it, a copy of the Act in pamphlet form was forwarded to every clergyman and every physician and every undertaker as far as known in the Province.

It has been the desire and aim of the Registrar-General to facilitate in every way possible the working of the Act, which has been passed by the Legislature with the clearly expressed intention of giving to the public the many advantages, legal, scientific, social and economic, which arise directly or indirectly from the collection and study of vital statistics.

It has been with much interest, associated with some anxiety, that the Registrar-General has awaited the termination of the first half year of the operation of the Act, in order by comparison and enquiry to find out to what extent the amendments to the Act have accomplished the end aimed at. With a view to obtaining the opinion of the Division Registrars, charged with the operation of the Act in the several municipalities of the Province, the following circular with questions answered below was issued to which up to date there have been 350 replies.

TORONTO, November 5th, 1896.

DEAR SIR,—

With the approach of the end of the first half year in which the Act relating to Births, Marriages and Deaths, passed by the Legislature in 1896, has been in operation the Registrar-General is anxious to obtain such opinions as to the operation of the Act, as will enable him to determine how far the amendments to the former Act have served to make the returns more complete, and the carrying out of the various particulars required under it more satisfactory.

He would therefore request you to give replies to the following questions, and to return the filled in Blank at your earliest convenience in order that the information supplied may be utilized in the preparation of the Annual Report for the Department.

I have the honor to be,
Your obedient servant,

P. H. BRYCE,
*Deputy Registrar-General.*

The questions have been answered very generally.

Question 1 :

*Have you been supplied with the special new Forms forwarded by the Registrar-General under the Act of 1896, and have you been able to obtain, on application, further supplies ?*

Question 2 :

*Have you had any difficulty with the postal authorities (in the matter of postage) in receiving or sending out the Forms under the Act ? If so state particulars*

The answers to the first two questions indicate that the post-office arrangements have been perfect, and that all Division Registrars have received supplies of Forms.

The answers to question 3 demand some remarks.

Question 3 :

*Have the reports of Births, Form "A," been received with regularity from physicians ? Would you shortly relate your experience with this particular return ?*

Remembering how common the presence of physicians is at births in Ontario, and having learned from experience that the most imperfect returns in former years have been those of births, the Legislature decided in view of the needs of the work and the ease with which physicians might aid in this statistical work, to require them to fill out birth returns. To the end of making the work perfectly simple, every physician was to receive through the clerk of the municipality wherein he resided a package of post-cards as already described. Their convenience has been acknowledged by all, and it is somewhat remarkable that some Division Registrars have had to report unsatisfactory results as regards the operation of the Act in this particular. Taken in their order the following answers from several counties taken as they occur are repeated in almost the same proportion from every county.

*Fairly well! No attention paid to law! Physicians are not prompt! Very satisfactory! Pretty general! Yes! Returns regularly received from either parent or physician! Great improvement! Not different from before! Physicians slow to report! Doctors do well! There is an improvement! Some do not return! Delay at first on account of form asking Christian name! Some doctors register, others do not? Physicians fail to return births! Physicians are most stupid and should be prosecuted.*

From the answers received, it would seem that on the whole the satisfactory character of the returns depends greatly upon the interest the local registrar takes in the work. The work of physicians is, especially in rural districts, arduous, irregular, and therefore not easily amenable to the regular order of a recorder's office; but generally if the Division Registrar is careful to keep him supplied with cards the physician will gradually get into the routine of making returns. That this section of the Act has been a valuable addition to its former provisions would seem fully proven from the increased returns of births in the second six months of 1896, as compared with the similar period in 1895. This will be illustrated by the figures in the table on page 13 of this report.

As, for reasons referred to in previous annual reports, there seemed to be in Ontario a decline in births, seen in cities with accurate returns, as in the United States and other countries, the improvement in returns seen in the tables on page 13 is most gratifying. The answer has frequently been given:—"*The returns will improve as physicians and the public become better acquainted with the working of the Act.*"

Question 4:

*Have the Forms relating to Deaths been regularly certified to by the Medical Health Officer (in Cities, Towns and Villages) prior to the issuance by you of the Burial Permit?*

Here we have another set of replies to a question regarding an essentially new feature of the Act. In the old Act physicians were required to make a death return within ten days of all sick persons, on whom they had been in attendance The present Act requires the physician to make such return *forthwith* on learning of the death. It further requires that in cities, towns and villages such returns must be sent by him for certification to the medical health officer of the municipality where the death took place. In townships and places where there is no medical health officer the return must be made to the clerk or division registrar. In all cases the card must have reached the hand of the clerk, and the death been registered and a burial permit granted, before the burial can legally take place.

The answers to the questions run much as follows:—

*Permit neglected before burial! No permit obtained! Permit refused!*

(The foregoing were from Algoma District.)

*Few deaths reported! Permit often given before burial! Yes, permits obtained! Registration very good before burial! In most cases! Caretakers bury without authority of the Burial Permit! Yes! Not in all cases! Yes, if looked after! Registration certified prior to burial! Sections 21, 22, 23 defective—provide no penalty!*

It will thus be seen that in the sparsely settled districts of Algoma, and to some extent in rural districts elsewhere where burial grounds have no caretaker, and often are in

charge of no church officer, that it will be some time before the burial prior to registration will cease unless local registrars are vigilant in reporting cases of this kind to the Registrar-General. It does not, of course, mean that such deaths are not registered, but that the intention of the Legislature requiring that reasonable time be given for proper inquiry into the cause of deaths before burial takes place has not always been complied with. As there are at least 3,000 burying grounds in the Province, information as to the law will only gradually be diffused.

Question 5—

*Have any special difficulties arisen in the operation of the Act in this particular? If so state them in detail?*

This question has practically been answered in the references made in the previous question, but these two answers are made:—"*That clergymen and caretakers of cemeteries bury without permits; while physicians make returns of cause of death only when asked!*"

Question 6:

*Have undertakers or others buried dead persons before the Burial Permits have been issued, and if so what explanations have been given for such violation of the Act? Give details in any special cases.*

Here we find the explanations given for the answers in questions 4 and 5. Thus:—

*Undertakers are careless! Undertakers do not like to comply with the law! Undertakers do not take out Burial Permits! Permits taken out! General ignorance of the law! Cannot say! Undertakers comply with law! Burial Permits taken out before burial! Undertakers take no notice! Burial Permits are a source of trouble! No Permits asked for! Permits taken out!*

With these illustrative answers we again can see how varied are the answers given. It may in this matter be particularly indicated how active a local registrar is in the performance of his duties. He is required to search out these cases, and to report non-compliance with the Act to the Registrar-General. This has not as yet been done to any great extent, there being a general feeling that sooner or later they obtain, or think they do, the most of the returns, and that they must not be too hard upon themselves and others for non-compliance with the new Act.

Question 7,

*Has the operation of the Act resulted in increased returns of Births and of Deaths?*

Question 8:

*Have any difficulties arisen in regard to the transport by train of bodies, and have any bodies dead of Contagious Diseases been so transported? State any particular instances.*

This is an attempt to obtain some idea of the operation of the Act, from the opinion or experience of the Division Registrars. The answers usually are:—

*An increase! A good improvement! No increase! An increase! Decided improvement in return of deaths! Most decided improvement! Yes! Think returns have improved! Yes, returns have more than doubled! Deaths are much improved! Yes, very much better! Some increase! Yes, to some extent! Law generally overlooked! I think there is an improvement of one-third in returns!*

There is, as seen in these answers, an almost complete concensus of opinion that the Act has resulted in a notable improvement in returns. This is illustrated by the table on page 12 of this report.

Here we see on the whole an increase; but, as has been remarked in previous reports, no great change was expected in the marriage returns, as it had been presumed they were fairly complete.

The improvement in death returns as seen in the above answers may be considered as notable, since the monthly returns of deaths from contagious diseases have all indicated an unusual freedom from epidemic outbreaks, with a season most favourable to health. This will be seen by reference to the table on page 12.

Question 9 :

*State in what particulars, if any, the working of the Act might in your opinion be improved ?*

The answers to this must be considered extremely favorable to the working of the Act, remembering that its operation is new, and to some extent exacting.

Eight of these are : *Inspector should prosecute ! Act is a good one ! Postmasters should be supplied with blanks ! Some difficulty in regard to burial permits ! Physicians should give all particulars in regard to a death ! Clergymen and doctors should be supplied with a book ! Pay more salary ! Present Act is a great improvement ! Suggests that the number of cases of sickness be reported monthly ! The Act is too stringent in regard to burial permits ! Believe it would be well if the nearest Division Registrar could issue burial permit !*

From the statistical results, of which examples have already been given, and from the numerous answers received and quoted from the circular sent out to Division Registrars, it is quite apparent that the Act of 1896 has proved itself a notable advance toward the attainment of that completeness of returns so much sought for. It was to be expected that a change in the law, which was likely to lay increased work upon an already overworked set of municipal officers, compared with the remuneration received, should meet with some objections ; but the free postage, the abundance and convenience of the forms supplied, and the increased fee for each registration, has served to give on the part of the Division Registrars a decided impetus to the work of obtaining complete returns. The inconveniences to the public which here and there have been noted have been wholly with regard to the registration of deaths and of permits prior to burial and occur in practice only in sparsely settled municipalities. Suggestions have been made of various kinds, such as utilizing post-masters for issuing burial permits ; but it is apparent that the very objects aimed at of a public record being kept by a responsible municipal official of the particulars as to the cause of every death, and a strict compliance with the terms of the law before the inhumation of any dead body, must serve as a deterrent to illegal practices, and if not, then to a greater likelihood of investigation of suspicious cases, before burial shall have made detection of crime in some cases impossible. A certain amount of reciprocity in the issue of burial permits might be possible between the Division Registrars of two neighbouring municipalities ; but it is possible that any attempt to adjust this by law would only cause confusion, while the public will very soon have become accustomed to the existing practice.

*Table making comparison between the returns for the second half year of 1896, under the Act of 1896, and the returns for the second half year of 1895 under the old Act.*

The comparison is made of all returns received up to end of January, 1897, amounting to 90% of the whole.

## III. Report of the Inspector of Vital Statistics.

TORONTO, January 1st, 1897.

TO THE HONOURABLE E. J. DAVIS,

*Registrar-General of Ontario.*

SIR :—I have the honor to report that during the past year I visited for the purpose of inspection the Division Registrars of 101 municipalities within the counties of Carleton, Elgin, Essex, Frontenac, Haldimand, Hastings, Kent, Lanark, Leeds and Grenville, Lennox and Addington, Lincoln, Middlesex, Northumberland and Durham, Ontario, Oxford, Peterborough, Simcoe, Victoria, Welland, and York. I also made enquiries at many of these places of the mayors, reeves, clergymen, physicians, undertakers, and other interested parties as to the working of the amended Act relating to the registration of births, marriages and deaths.

I find the consensus of opinion, especially on the part of the division registrars themselves, highly favorable to nearly all of the several amendments which have been introduced, and as a result the returns for the past year will show a considerable improvement, in almost every respect, over those of any previous year since the Registration Act was first introduced.

The provision in the new Act by which a register of all the births, marriages, and deaths is to be kept by the Division Registrar of each municipality seems to have met with universal favor, and certainly impresses the clerk with a better idea of the importance of his work than did the slip-shod mode which had heretofore been in vogue.

Another most acceptable improvement has been the increase in the fee from ten to twenty cents for each registration. As I have frequently pointed out the fee of ten cents was ridiculously inadequate for the work that a Division Registrar was called upon to do in order to secure the necessary information to ensure a correct return, and I feel assured no municipality will begrudge the payment of a sum that comes a little nearer recognizing the axiom that "the laborer is worthy of his hire." The increased fee has no doubt stimulated to increased exertion and larger returns must necessarily follow.

About the only objection I have heard against the working of the new Act is in connection with the obtaining of "burial permits." No doubt a hardship is occasionally entailed upon the party who has to travel ten or fitfeen miles in order to obtain the necessary permit, only to find he has frequently to wait for a considerable length of time owing to the absence of the Division Registrar from his home. Various means have been suggested by which this trouble might be obviated, one proposition being that permits, signed in blank, be left with postmasters to be filled in by them as required, another that the medical health officer be given charge of them, and still another that all medical practicioners in good standing be allowed the same privilege. While the adoption of any one of these propositions would no doubt make it an easier matter to obtain a permit, I am afraid it would to a great extent do away with the protection that is now afforded by the necessity of a permit being procured before burial can take place, and therefore I would not at present recommend any change in the Act in this respect.

During the past year a number of instances of breaches of some clause of the Act,—mostly of a minor nature,—were reported by Division Registrars, but in nearly every case a warning from the Department has had the desired effect and reparation as far as possible has been made. I have not, therefore, felt compelled to proceed to extremes by prosecuting any parties for infraction of the Act, but I would respectfully urge,—as the amended Act has been in force for nearly a year, and therefore its provisions should be well understood by all parties,—that the penalty clauses be more fully enforced in the future.

I am glad to be ahle to say that the physicians as a body, who, for such a long period, were so backward in making reports to the Division Registrars, have shown a great improvement in this respect during the past year. Many of them, however, are

still slow in carrying out their duties, and until such an important section of the community interest themselves actively in assisting the Division Registrars in perfecting the returns of births, marriages and deaths, vital statistics will be by no means as satisfactory as they otherwise should be.

Taken altogether the work of the Division Registrars for 1896 shows, in many ways, a marked improvement over any previous year, and gives renewed hope that in the near future we may reasonably expect the returns to be entirely satisfactory.

I have the honor to be, Sir,

Your obedient servant,

R. B. HAMILTON,

Inspector Vital Statistics.

## IV. An Act Revising and Consolidating the Acts Respecting the Registration of Births, Marriages and Deaths.

HER MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows :—

1. The term "occupier," used in this Act, shall be construed to include the master, governor, keeper, warden or superintendent of a gaol, penitentiary, lunatic asylum, poor asylum, hospital, industrial home, house of refuge, or other public or private charitable institution.

### Office and Duties of the Registrar-General.

2 For the purposes of this Act the Registrar General of the Province shall be that member of the Executive Council whose department for the time being is charged with the administration of the Act.

3. The Lieutenant-Governor in Council may appoint an inspector, whose duty shall be to inspect the different registration offices throughout the Province, and carefully examine the different schedules, to see that the entries and registrations are made and completed in a proper manner and in legible handwriting. He shall institute prosecutions for violations of this Act whenever so instructed by the Registrar General.

4. The Registrar-General shall cause copies, certified by the division registrar, of the original returns of the births, marriages and deaths in each division, together with all the particulars communicated to him by the division registrars, to be arranged, indexed, bound and kept in the office of the Registrar-General.

5. The Registrar-General shall annually collate, publish and distribute for the use of the Legislature, a full report of the births, marriages and deaths of each preceding year, giving such details, statistics and information as the Lieutenant-Governor in Council may think necessary.

6. The Lieutenant-Governor in Council may from time to time make such rules, orders and regulations as may be required for the purpose of effectually obtaining the information required by this Act.

7.—(1) Any person shall be entitled at all reasonable hours on payment of a fee of twenty-five cents, and on signing the form of application prescribed by the Registrar-General, to examine the records of births, marriages and deaths kept in the office of the Registrar-General.

(2) The Registrar-General shall when requested issue a certificate containing the details of any entry found in the records of the office, on payment by the applicant of a fee of fifty cents. Any such certificate shall be *prima facie* evidence in any court in the Province of the facts stated therein.

8. The Registrar-General shall cause such schedules or forms to be prepared from time to time as may be approved by the Lieutenant-Governor in Council, in order to the procurement of correct statistical information ; and he shall distribute the same to the several division registrars, and the costs and expenses of such forms and the expenses attendant upon the distribution thereof shall be paid out of the consolidated revenue fund of the Province.

### Registration Districts.

9. All territory within the limits of the Province of Ontario, shall, for the purpose of this Act, be a part of some registration division ; every city, town, incorporated village, township or union of townships, shall be a registration division ; and any territory not by this Act already included in some registration division may by the Lieutenant-Governor in Council be attached to some existing registration division or be set apart as a new registration division.

10. Where any registration division is not within any organized municipality, the Lieutenant-Governor in Council may appoint a division registrar for the same, and may make such rules and regulations as may be necessary to secure a correct record of the births, marriages and deaths occurring therein until the territory comprising the registration division, or some part thereof, either with or without other territory, becomes a municipality.

### Office and Duties of Division Registrars.

11.—(1) The clerk of every municipality, other than counties, shall be the division registrar of the same.

(2) Every division registrar shall receive the forms sent by the Registrar-General, and keep the same in a place of safety; he shall use all available means to obtain the necessary information as hereinafter required in this Act, and shall make entry thereof on said forms, and he shall on or before the 15th days of January or July in each and every year make his returns for the preceding half year to the Registrar-General. The forms received and prepared by the division registrar, containing the information required by the Act shall be preserved by him for at least one year, and the information therein contained shall be transferred to schedules or forms certified under his hand for transmission to the Registrar-General.

(3) The original returns shall be entered and indexed in a book kept by the division registrar for the purpose, the said book to be supplied at the cost of the municipality and to be prepared according to the form prepared by the Registrar-General.

(4) Every division registrar shall further be required to make a return on or before the fifth day of every month, on post cards supplied by the Registrar-General and prepared for the purpose, of all the deaths from contagious disease occurring within the municipality during the preceding month.

12. Every divisiion registrar shall, immediately upon registering any death, deliver without fee or reward, to any person requiring the same for the purpose of burial, a certificate according to the form prepared by the Registrar-General, that the particulars of such death have been duly registered.

13. In case any division registrar has reason to know or to believe that any birth, marriage or death has taken place within his registration division, and which the legal informant has neglected to register, it shall be his duty to make diligent enquiry into the fact, and if thereupon he shall have reason to know or suspect that such birth, marriage or death has taken place he shall notify the proper party of his duty to register the same. Upon failure of the latter to do so the division registrar shall forthwith supply the inspector of vital statistics for the Province with such information as he possesses in regard to the matter.

14. If within one year from the registration of any birth, marriage or death with the division registrar, any of the particulars of such birth, marriage or death are found to be incorrect, then upon the same being reported to the proper division registrar within the time aforesaid it shall be his duty to enquire into the same, and if satisfied that the entry is incorrect, to correct the error according to the truth of the case, entering the correction in the margin, without any alteration of the original entry. If the schedule containing a copy of the original entry of such birth, marriage or death has been returned to the Registrar-General the division registrar shall report the error to the Registrar-General, whose duty it shall be to correct the error in the margin of the schedule, as well as in the indexed record thereof, without altering the original entry.

### Registration of Births.

15. The father of any child born in this Province, or, in case of his death or absence, the mother, or in case of the death or inability of both parents, any person standing in the place of the parents, or if there is no such person, then the occupier of the house or tenement in which to his knowledge the child was born, or the nurse present at the birth, shall within thirty days from the date of the birth give notice thereof to the registrar of the division in which the child was born, giving as far as possible the particulars required in the form provided under this Act, with such additional information as may from time to time be required by the Registrar-General.

16. It shall be the duty of every qualified medical practitioner attending at the birth of any child born within this Province to give notice forthwith thereof to the registrar of the division in which the child was born, giving as far as possible the particulars required in the form provided by the Registrar General, with such additional information as may from time to time be required by the Registrar-General, on forms to be supplied through the division registrar.

17. In registering the birth of an illegitimate child, it shall not be lawful for the name of any person to be entered as the father unless at the joint request of the mother and of the person acknowledging himself to be the father; and in all cases of the registration of the birth of illegitimate children the division registrar shall write the word "Illegitimate" in the column set apart for the name of the child, and immediately under the name, if any.

18. Although neglect to register any birth within thirty days has occurred, a division registrar may still register the same within one year after the birth has occurred; but, if the neglect has continued for a longer period, the birth shall not be registered except with the written authority of the Registrar-General, and the fact of such authority having been given shall be entered in the column set aside for remarks in the form specially supplied for the purpose. The authority of the Registrar-General shall not, however, extend to the registration of any birth if over ten years shall have elapsed since such birth took place.

19 Where the birth of any child has been registered, and the name, if any, by which it was registered, has been altered, or if it was registered without a name, when a name is given to it the parent or guardian of the child or other person procuring the name to be altered or given, may within ten years next after the registration of the birth, deliver to the Registrar-General a certificate signed by the minister or person who performed the rite of baptism upon which the name was given or altered, or if the child is not baptized, signed by the father, mother or guardian of the child, or other person procuring the name of the child to be given or altered, and the Registrar-General shall upon the receipt of the certificate make the necessary alteration in the margin of the schedule containing the original entry, without making any alteration in the entry, as well as make the same changes in the index recording such birth.

### Registration of Marriages.

20. Every clergyman, minister or other person authorized by law to celebrate marriages, shall report every marriage he celebrates to the registrar of the division within which the marriage is celebrated, within thirty days from the date of the marriage, with the particulars required in the form provided under this Act, and in order to better enable the clergyman, minister or other person to make the report as aforesaid, he shall be furnished by the division registrar of the division in which he resides with blank forms containing the particulars required under this Act.

### Regitstration of Deaths.

21. The occupier of a house or tenement in which a death takes place, or, if the occupier be the person who has died, then some one of the persons residing in the house in which the death took place, or if the death has not taken place within a house, then any person present at the death or having any knowledge of the circumstances attending the same, or the coroner who attended any inquest held on such person, shall before the interment of the body supply to the division registrar of the division in which the death took place, according to his or her knowledge or belief, all the particulars required to be registered touching such death, in the form provided under this Act.

22. Every duly qualified medical practitioner, who was last in attendance during the last illness of any person, shall forthwith on notice of the death of such person, send to the medical health officer of the municipality, in all cities, towns and villages for inspection and subsequent transmission to the division registrar, or in case there is none, to the division registrar of the division in which the death took place, a certificate under his signature of the cause of death, according to the form prepared by the Registrar-General, to be provided by the division registrar, who shall be furnished with such forms, and who shall supply them to the physicians resident within his municipality.

23. No removal for burial of the dead body of any person shall take place, and no undertaker, clergyman, sexton, householder or other person shall engage in the burial of the dead body of any person unless a certificate of registration has been previously obtained and shown to the person so removing or engaging in the burial of the dead body. Provided that when death from a contagious disease has occurred in any township, a certificate of registration from the nearest division registrar after revision by the medical health officer of the township and his certification thereof endorsed thereon shall be sufficient; but such division registrar shall forward the certificate to the registrar of the division in which the death occurred.

24. The caretaker or owner of any cemetery or burial ground whether public or private, or any clergyman having charge of a church to which a burial ground is attached shall not permit the interment of the dead body of any person in the burial grounds over which he has charge unless he has received a certificate under the hand of the division registrar of the division in which the death took place, that the particulars of the death have been duly registered. He shall further be required before the last day of June and of December in each year to supply the registrar of the division in which the burial ground is situate, a list of the number of burials therein during the previous half year, giving the names of the persons whose bodies are therein buried, and the dates on which the interments took place.

25. After the expiration of two years next after any death, and in all cases where the dead body of any person is found elsewhere than in a house, that death shall not be registered except with the written authority of the Registrar-General, and the fact of such authority being given shall be entered in the schedule provided for the registration of deaths.

### Penalties.

26. In case any division registrar neglects or refuses to make returns as required by this Act, he shall be notified by registered letter of such neglect by the Registrar-General. If after notification, he shall fail within one month to make such return, it shall be competent for the Registrar-General to refuse to issue the certificate for the payment of the fees due him by the municipality for which the return is made, even though the return should be made at a later date, and he shall, upon conviction before any magistrate or justice of the peace, forfeit the sum of $50 to Her Majesty. Such suit shall be conducted by the county crown attorney when instructed by the Registrar-General, and the costs of the prosecution shall be borne by the municipality in default in the matter of returns.

**27.** Any person who knowingly or wilfully makes, or causes to be made, a false statement touching any of the particulars required to be reported and entered under this Act, shall, upon conviction thereof before any stipendiary or police magistrate or justice of the peace, forfeit the sum of $50; and any physician making a false statement as to the cause of death of any person shall be subject to disclipine by the Ontario Medical Council.

**28.** If any person required by this Act to report births, marriages, deaths or burials to the division registrar refuses or neglects to do so within the time named, such person shall, for each and every offence, forfeit and pay a sum not less than $1 nor more than $10 and costs, in the discretion of the presiding magistrate or justice before whom the case is heard; and it shall be the duty of the inspector of vital statistics for the Province on notice by any division registrar to make investigation, and where necessary to institute such proceedings against such persons so neglecting or refusing to make the required reports; but, if the return required by this Act to be made by more than one person is made by any one of such persons the other of such persons shall not be liable to any penalty in respect of his default, and such prosecution shall be commenced within two years after the time allowed for reporting the birth, marriage, death, or burial.

**29.** Any stipendiary or police magistrate or any justice of the peace having jurisdiction within the locality where any offence against this Act has been committed may hear and determine the complaint, and shall have power, in case the penalty and costs awarded by him are not forthwith paid upon conviction, to levy the same by distress and sale of the goods and chattels of the offender by warrant under his hand and seal, and in default of payment or of sufficient distress, the offender may, by warrant signed and sealed as aforesaid, be imprisoned in the common gaol for a period not less than one day nor more than twenty days, at the discretion of the justice, unless the penalty, costs and charges of commitment are sooner paid.

FEES.

**30.** All fees received by the Registrar-General shall be placed to the credit of the Registrar-General's department in the books of the Treasurer of Ontario.

**31.**—(1) Every municipality in the Province of Ontario shall pay annually to the division registrar appointed therefor under this Act a fee of twenty cents for each complete registration of birth, marriage or death returned according to the schedules provided under this Act, on the presentation of the certificate of the Registrar-General to the Treasurer of the municipality; but a city or town containing more than ten thousand inhabitants may limit the aggregate compensation allowed to the division registrar. No certificate for payment of these fees shall be issued by the Registrar-General until he is satisfied that every return has been made as complete as under the circumstances may be possible.

(2) The penalties mentioned in this Act shall be payable, one moiety to the informant, and one moiety to the municipality.

(3) All expenses incurred in prosecutions under this Act, in all cases, whether or not a conviction is obtained, shall be payable out of the funds of the municipality to which a moiety of the fines are payable.

**32.** Fees shall be paid at the rates set forth in section 31 of the Act to every division registrar appointed by the Lieutenant-Governor in Council for any registration division, and not included within any municipality, out of moneys voted by the Legislature for this purpose.

**33.** The county record of marriages prepared under chapter 72 of the Consolidated Statutes of Upper Canada, 1859, by the clerks of the peace and now preserved in the county registry offices, shall on request be delivered to the Registrar-General, and shall be kept for preservation and reference among the records in the office of the Registrar-General.

**34.** The *Act respecting the Registration of Births, Marriages and Deaths*, being chapter 40 of the Revised Statutes of Ontario, and all Acts or parts of Acts amending the same are repealed.

## V. Notes on the Tabular matter of the Report.

The summary of the detailed statistics contained in the appendix will be found in the special tables at page 22 of the report proper.

Births.—The total births recorded in 1895 is 41,628, or a decrease of 423 as compared with that in 1894, or a rate of 18.8 per 1,000 of population. The number of births by months is seen in Table 11., page 35, and the proportion of male to female births in Table 10, page 33.

The number of illegitimate births, twins and triplets, recorded in 1895 is found on Table 9, page 33.

Marriages.—The total marriages recorded in 1895 was 13,987, or of 27,974 persons were married. This is a rate of 6.3 per 1,000 of population, and is a decrease of 354 marriages as compared with 1894. The marriages by months and quarters will be found in Table 12, page 35, and marriages by denominations in Table 13, page 35. The same ratios of marriages by quarters and by denominations are seen in 1895 as in the several previous years.

Deaths.—The total number of deaths in 1895 was 22,461, being a decrease of 77 as compared with 1894, or a rate 10.1 per 1,000 population.

*The following table shows the increase (I) or decrease (D) by classes of diseases as compared with 1894.*

| —— | 1894. | 1895. | I.=Increase. D.=Decrease. |
|---|---|---|---|
| Zymotic diseases | 4,429 | 3,987 | D.=442 |
| Constitutional diseases | 4,769 | 4,681 | D.= 88 |
| Local " | 7,978 | 8,140 | I.= 162 |
| Developmental " | 4.188 | 4,522 | I.= 334 |
| Violent deaths | 783 | 779 | D.= 4 |
| Cause not specified | 391 | 352 | D.= 39 |
| Total | 22,538 | 22,461 | D.= 77 |

The following table shows the increase or the decrease of deaths by classes of disease in cities.

*Table showing increase (I) or decrease (D) of deaths by classes in cities as compared with 1894.*

| —— | 1894. | 1895. | I.=Increase. D.=Decrease. |
|---|---|---|---|
| Zymotic diseases | 1,274 | 1,254 | D.= 20 |
| Constitutional diseases | 1,417 | 1,503 | I = 86 |
| Local " | 2 375 | 2,503 | I.= 128 |
| Developmental " | 1,147 | 1,232 | I.= 85 |
| Violent deaths | 192 | 194 | I.= 2 |
| Cause not specified | 45 | 25 | D.= 20 |
| Total | 6,450 | 6,711 | I.= 261 |

For the whole Province the total deaths from phthisis in 1895 were 2,472 as compared with 2,379 in 1894. The total deaths from diphtheria and croup were 942 in 1895, as compared with 1,075 in 1894.

The following table gives the total deaths from individual communicable diseases in 1895 as compared with 1894 for the whole Province:

The following table shows the deaths from individual communicable diseases in cities in Ontario in 1894-95:

| — | 1894. | | | | 1895. | | | |
|---|---|---|---|---|---|---|---|---|
| | Phthisis. | Diphtheria. | Typhoid. | Scarlatina. | Phthisis. | Diphtheria. | Typhoid. | Scarlatina. |
| Toronto | 442 | 110 | 45 | 68 | 430 | 147 | 56 | 14 |
| Hamilton | 80 | 72 | 9 | 2 | 104 | 11 | 12 | 10 |
| Ottawa | 98 | 124 | 18 | 19 | 91 | 78 | 22 | 25 |
| London | 54 | 48 | 7 | 1 | 51 | 9 | 12 | 1 |
| Kingston | 33 | 5 | 4 | ..... | 27 | 26 | 16 | ..... |
| Brantford | 19 | 10 | 9 | 14 | 26 | 18 | 16 | ..... |

| St. Thomas | 12 | 1 | 3 | 1 | 11 | 5 | 3 | 1 |
| St. Catharines | 23 | 5 | 5 | 2 | 21 | 3 | 2 | ..... |
| Stratford | 16 | ..... | 4 | 1 | 8 | 1 | 2 | 1 |
| Windsor | 21 | ..... | 5 | ..... | 21 | 2 | 5 | ..... |
| Chatham | 13 | 12 | 3 | ..... | 7 | 5 | 5 | 1 |

In view of the studies in other annual reports of marriages, births and deaths based upon the returns made under the old Registration Act, it has been thought proper to delay further comparative study of the returns until we shall have learned how far the returns under the Act of 1896 exceed in completeness those previously received. As already indicated by the tables found on page 12 it will be impossible, except in a comparative manner to study for any year the prevalence of any particular disease or class until after a number of years of improved returns may make it desirable to compare the mortality of one year with that of another.

It is trusted that the improvement already experienced in the number and completeness of returns will prove permanent and that hereafter the vital statistics of the Province of Ontario may approach that perfection which marks those of the older communities of Europe.

TABLE 1.

Table shewing the total number of Births, Marriages and Deaths in each County in 1895.

| Counties. | Population. | Births. | | | Marriages. | | | Deaths. | | | Totals. | | | Ratio to 1,000 of the population. | | |
